

# ShipBikes.com DUO Shipping System #3679

For best results we recommend folding all flaps back and forth (3) times.

Remove the shock fork if necessary and lay it on the bottom of the container.

Always unscrew the rear derailleur from the frame.

Install the thru axle that comes with the bicycle or use the 8 inch rod and nuts provided.

(FRONT FORK)

(1) B1290-00 CLEAR PACKING ENVELOPE

(1) S7019 5/16" X 8" AXLE AND (4) FORK NUTS

(REAR DROPOUTS)

Always unscrew the rear derailleur from the frame.

Division of Lickton's Supply Corporation serving the bicycle community since 1929.

# (Shortcut)

## #1

Now it's time to prepare your Econ 2 shipping container (53 x 8 x 30 inches)

## #3

Unfold the container so it matches this image. Fold each flap back and forth (3) times to form the box.

## #2

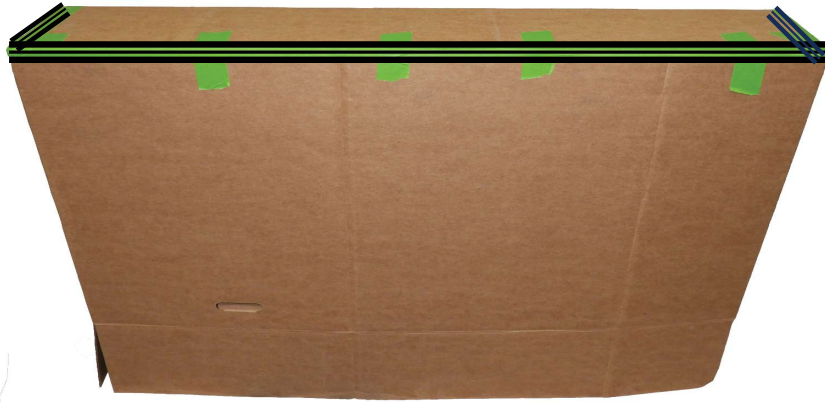

Stand your container upright.

## #4

Use 6 to 8 short pieces of packing tape to close the bottom flap.

# #5

Tape all three sides down with packing tape and flip the Econ-2 over.

# #7

Fill the bottom with crumpled protective paper or bubble wrap. Lower the bicycle in the Econ2 and fill completely to the top with paper or bubble wrap.

# #6

Fold the small and large flaps back and fourth three times.

Tape down all of the exposed edges of the container. Print your return address on the right side of the container. Once it's all taped down, shake the container, if you still hear parts rattling open and add more material. Final step go to **SHIP A BOX.**
